

The diagram consists of two red circles at the top, each containing text. The left circle is labeled '数值计算' (Numerical Computing) and the right circle is labeled '非数值计算' (Non-Numerical Computing). Below these circles is a large blue oval containing a definition of '数据结构' (Data Structures) in green text. The blue oval is positioned centrally and overlaps the bottom of the two red circles.

数值计算

非数值计算

数据结构是一门研究非数值计算的程序设计问题中的操作对象, 以及它们之间的关系和操作等相关问题的学科.
